Education

Veermata Jijabai Technological Institute	**2022 - 2026**
Btech. Information Technology	*Mumbai, India*
HPT RYK College of Science	**2020 - 2022**
HSC: 90%, MHTCET: 99.6024 percentile	*Nashik, India*
New Era English School	
SSC: 95%	*Nashik, India*

Relevant Coursework

- Data Structures
- Software Methodology
- Algorithms Analysis
- Computer Organisation and Architecture
- Linear Algebra
- Descrete Mathematics
- Java
- C++

Projects

Flixx | *React, Node.js, MongoDB* — **June 2023**

- Conceived and developed **Flixx**, a dynamic web application enabling users to effortlessly track the latest and upcoming movies and TV shows.
- Designed and implemented the front end using *HTML, CSS, and JavaScript (React)*, providing an intuitive user interface for seamless navigation and interaction.
- Utilized the *Document Object Model (DOM)* to dynamically update the content, ensuring a real-time display of the most recent information.
- Implemented back-end functionalities using *Node.js* and *MongoDB* to store and retrieve user preferences and data.
- Collaborated with a team of developers to enhance user experience and address bugs, ensuring a smooth and responsive application.
- Regularly updated the platform to incorporate new features, enhancing user engagement and satisfaction.

Tracalorie | *HTML, CSS, JavaScript, React, Tailwind, Node.js* — **November 2023**

- Developed and deployed a web application called Tracalorie that enables users to set and monitor their daily calorie limits, track their diet, and log workout activities.
- Implemented the frontend using HTML, CSS, and JavaScript, with dynamic updates facilitated by the Document Object Model (DOM).
- Utilized React for building interactive and responsive user interfaces, ensuring a seamless and engaging user experience.
- Designed the application's user interface with the Tailwind CSS framework, focusing on a modern and visually appealing layout.
- Implemented the backend functionality using Node.js, enabling user authentication, data storage, and retrieval.
- Incorporated features allowing users to challenge themselves by setting and achieving daily calorie targets, as well as tracking burned calories during workouts.

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL
Developer Tools: VS Code, Eclipse
Technologies/Frameworks: Linux, GitHub

Leadership / Extracurricular

Technovanza	**Jan 2023**
Technovanza Manager	*V.J.T.I, Mumbai*

- Managed Asia's largest managerial fest, Technovanza, with a record 80,000+ attendees.
- Orchestrated successful event execution, ensuring seamless team coordination and stakeholder engagement.
- Implemented strategies for enhanced participant engagement, leading to increased attendance and positive feedback.
